Kilgore company General Dynamics SATCOM Technologies has received a \$150,000 incentive payment from Kilgore Economic Development Corp.

SATCOM is a division of General Dynamic C4 Systems. The company supplies satellite and wireless communications products and services for video, voice and data.

The organization awarded the company for real property improvements of \$575,000 and for increasing the number of full-time employees. In 2007 the company signed an incentive agreement with KEDC, allowing an incentive award for attaining \$575,000 in real property improvements and adding 12 or more full-time employees.
